

BALTON[®] living

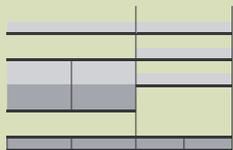

ROOM DESIGN

An active life needs flexibility. Balton living, the living system with the filigree ladder structure and sleek boards, has a modern lightness and offers a variety of possibilities. Whether it's a traditional or modern setting, the living system with the distinct design and the outstanding combination possibilities creates room for objects and feelings.

WELL-BEING IS SOMETHING WE PERCEIVE IN OUR OWN SPECIAL WAY.
FOR SOME OF US, IT'S MORE THAN JUST A DECISION BETWEEN A HOUSE
AND A HOME – IT'S A CHOICE TO COMBINE BOTH.

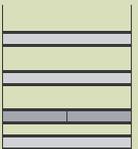

BALTON living

RELISHING

MODERN LIVING MEANS HAVING PREFERENCES, LIVING YOUR PASSIONS AND ALLOWING SPONTANEITY AND CHAOS. TRUE ENJOYMENT IS THE COMFORT OF KNOWING THAT STABILITY, FUNCTION AND ORDER ARE ALL PART OF THIS.

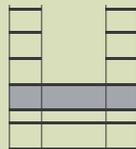

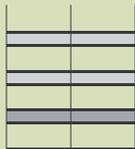

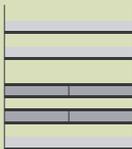

COLLECTIBLES

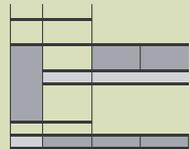

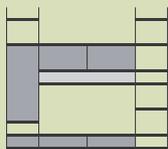

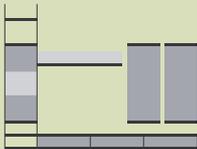

Are you a CD freak, book worm or shell collector? Balton living is designed for people with interests of all types. The flexible living system can accommodate all your favorite collectibles while retaining its modern

lightness. In addition to the basic model in which the main body and boards can be hung, you can add boards 1.65 meters long without support. So don't worry about space – just collect!

BALTON® living

FINDING SERENITY

LUCKY ARE THOSE WHO HAVE A PLACE TO RETREAT,
FEEL GOOD AND RELAX FROM THE LIFE “OUTSIDE.”

If you aren't looking for a ready-made concept, in Balton living you have the possibility to make your own personal mark. The living system adapts to an active life. It is open for everything and everybody, especially for contemporary people. With

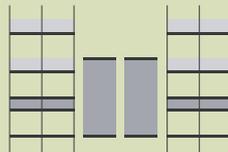

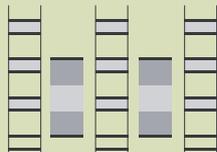

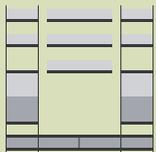

its clear and linear design and its horizontal accentuation, Balton living creates comfort and structure in a room. Decide for yourself whether your Balton living system should be a highlight in your room or a discreet fixture.

ENJOYING SUNDAY

THERE ARE MOMENTS WHEN HAPPINESS CAN BE SOMETHING AS SIMPLE AS A FRESH CUP OF COFFEE OR SOMETHING BEHIND YOUR OWN FRONT DOOR: GO INSIDE, BREATHE DEEPLY AND RELAX! ENJOY BEING AT HOME.

BALTON® living

Are you a family person or a single? Have a dog or cat? Or maybe even a mouse? With only a few basic models, you can create unlimited combinations, giving you plenty of freedom to satisfy your own living situation, personal desi-

res, ideas and dreams. Filigree ladders made of chrome metal are the supporting verticals of the system. They are combined with shelf boards (32 millimeter) in a white finish or combined with a hazelnut-colored border. The main

bodies, which are also available as cabinet elements with printed glass fronts, can be attached between the ladders or to the walls or can be positioned freestanding. You can easily extend the system as you wish.

BALTON living

EXAMPLES

Balton Living is a shelf and living room system. The chrome metal ladders are the vertical construction elements in which the main bodies, shelf boards or corner boards can be hung. All surfaces are finished. The borders have an ABS finish.

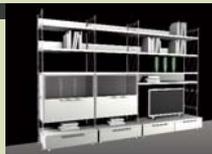

All main bodies (38 cm deep) are also designed for wall attachment and can be supplemented with wall boards.

The TV elements (52 cm deep) can only be used as standing elements.

The main bodies are equipped with glass boards. The glass cabinet elements can also be illuminated.

Program types:

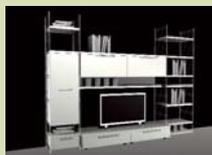

- _ White main body/white front
- _ White main body/black glass front
- _ White main body/hazelnut border in upper shelf board/white front
